Not previously funded by CURCA

Terrie L. Millard, PT, DPT, MMSc, PCS
Associate Professor
Department of Physical Therapy
tmillard@northgeorgia.edu
Not previously funded by CURCA

Activities to end formally in April 2013

Introduction

3D Printing

3D printing is a process of “printi

Project Description

Our proposal is to purchase a 3D printer (Replicator 2) and consumables (spools of PLA plastic in various colors) from Makerbot, and train several undergraduate students selected from the Departments of Visual Arts, Biology, and Physics
